Certificate Program in Innovation and Entrepreneurship for Development

In collaboration with Bogazici University Innovation Center and Islamic Development Bank, we offer Certificate Program in Innovation & Entrepreneurship for Development. This program is an online certification program taught in English that aims to build individuals' capacity in leading entrepreneurship and innovation driven economic development.

The program, offered by Bogazici University will combine entrepreneurship, marketing, leadership, design thinking, creativity, innovation economics, policymaking, technology road mapping, finance and accounting for startups and business processes for designing a viable growth driven business opportunity. The program consists of 9 courses and a business plan to be submitted by the students. 30 selected applicants shall receive a specially designed scholarship from the Islamic Development Bank. Also, the best 10 business plans will receive recognition from Islamic Development Bank, as well.

The overall duration of the program is 6 months. It is delivered in two phases with 5 modules in total.

75% Islamic Development Bank scholarship is available for 30 accepted students.

To know more about the program and apply, please visit
<http://innovation4development.net/>

Deadline for scholarship application is December 05, 2016 and deadline for registration is January 05, 2017.

Program starts on January 16, 2017.
